PROFESSIONAL SUMMARY

Computer Science and Design student passionate about technology, creativity, and problem-solving, with a growing foundation in programming, AI concepts, web development, and user-centered design. Skilled in design tools like Figma and Canva, and familiar with C, HTML, CSS, SQL, and Python, with experience in creating digital interfaces, prototypes, and AI-integrated solutions. Adept at teamwork, leadership, and communication, with exposure to collaborative environments through internships, student organizations, and academic projects. Enthusiastic about UI/UX design, Artificial Intelligence, and front-end development, with a strong commitment to learning, innovation, and building meaningful digital experiences.

EDUCATION

Sardar Vallabhbhai Patel Institute of Technology

Bachelor of Engineering in Computer Science and Design | CGPA: 9.68/10

Vasad, Gujarat

Expected 2027

Tree House High School

High School Diploma | 76.80 Percentile

Vadodara

2022

SKILLS & COMPETENCIES

Technical Skills: C Programming, HTML & CSS, Python, Problem Solving, Prompt Engineering

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib

Design & UX Skills: Wireframing and Prototyping, Figma, UI Layout Design, Visual Design (Typography, Colour Theory, Spacing), Canva, Blender, User-Centered Design, Design Thinking Process

Soft Skills: Teamwork, Communication, Time Management

EXPERIENCE

AI/ML Intern

IBM

Remote

2024

– Gained hands-on exposure to AI and ML concepts through IBM's internship program.

Team Member – OGV

AIESEC

Vadodara

2023–2024

– Improved communication and teamwork skills through collaborative organisational activities.

PROJECTS

Landing Page for a Scented Candle Brand | *Figma*

– Designed a modern and user-friendly landing page focusing on layout, aesthetics, and brand identity.

Smart TV UI | *Figma*

– Designed a user-friendly Smart TV interface with intuitive navigation and clean visual hierarchy.

CureYou – Healthcare App | *UI/UX Case Study*

– Designed a mobile app to simplify doctor discovery by symptom input and appointment booking.

- Created clean, intuitive UI with easy navigation and quick appointment access.

FinWell – Financial Wellness Platform | *UI/UX Case Study*

- Designed a platform to help young professionals track expenses, set savings goals, and improve financial habits.
- Conducted user research; created user flows, wireframes, and high-fidelity designs.
- Designed intuitive dashboards for tracking spending patterns and financial progress.

Personal Portfolio Website | *HTML, CSS, JavaScript (Ongoing)*

- Designing and developing a portfolio with clean visual hierarchy, responsive layout, and intuitive navigation.

To-Do List Website | *HTML, CSS, JavaScript*

- Built a minimal daily routine tracker with a clean user interface for task management.

Chatbot for Heart Attack Prediction | *IBM Watson*

- Developed a chatbot using IBM Watson and designed a conversational flow for user-friendly information delivery.

Next-Gen HR: Enhancing Recruitment and Performance using AI | *Python, Flask (Ongoing)*

- Contributing to UI structure and UX planning for an HR dashboard powered by Random Forest for recruitment.
